

Culver Elementary School Presents:

Apollo After School

EXTENDED DAY PROGRAM

Homework

Enrichment

Fitness

Snacks

Mon

Science Club

Starts August 28th

Parachutes, spaceships, lasers, hadron colliders - we all know that science is a subject that's just for the cool kids (like you, of course!). The good news is that science is easy and incredibly fun to start practicing! Students in Apollo Science will learn how to ask the questions that are the beginning of all scientific discoveries, how to make hypotheses, and of course the fun part – testing them to see how they work. Through a hands-on and exciting curriculum, this club will help your child become more curious and have a deeper understanding about how the world works.

Tue

Board Games Club

Starts August 29th

Whether in games of chance or games of skill, board games are an incredible source of fun, social interaction, and mental activity. Students in this club will play many of their favorite board games, and even learn some new ones to teach their parents.

Wed

Apollo Builders

Starts August 30th

Everybody likes to build! Creating new objects has always been at the core of human existence, and is one of the most rewarding and fulfilling activities for the old as well as the young. In our club, your child will learn many basic building techniques and will be encouraged to put their imaginations and hands to work in making their ideas turn into reality.

Thu

Math Club

Starts August 31st

Math is fun – we're not just saying that, let us show you! Our math enrichment club uses a variety of games and hands-on activities to help improve our students understanding of this critically important subject. Our curriculum emphasizes how math relates to creativity and everyday life, whether it is the geometry of creating their personal starship or in saving money for a trip to the theme park.

Fri

Apollo Olympians

Starts September 1st

Zumba! Yoga! Dancing! These easy fitness activities for kids make exercise so much fun that your children won't notice they're working out. When you motivate children to exercise, they will be happier, healthier, and more focused!
